WALLSTONE | PAVING | OUTCROPPING | SIGNAGE

It's About The Details.

Whether it's in our showrooms, quarries or our national distribution channels, you'll find the highest quality building and landscaping stone known in the United States. Natural stone is the most versatile product available in building and landscaping, so we pay special attention to the details of your plan to ensure that the right stone is specified before the order is placed. Whether you are a homeowner, landscaper or architect, we encourage you to talk to us very early in the project to discuss the preferred stone for the application you have designed. The team of experts at Halquist can assist you with recommendations that add quality and character throughout the entire project.

The dedication to providing our customers with the best stuff made on Earth is what transcends the ordinary into a body of work that inspires the soul.

From every level of our organization we are dedicated to helping you bring your ideas to life. We invite you to visit our 8,000 square foot designer showroom along with over four-acres of outdoor displays. After you've had an opportunity to look over the many options that are available to you, we can help you take the next step in designing the home or commercial project of your dreams.

The natural depth of our cut stone, fabrication facilities, and our architectural stone expertise, enables us to supply both large and small stone projects fabricated from the finest stone known to man - commercial or residential. Plus our estimators can put your ideas or job specifications to paper with the latest drawing techniques on the latest AutoCAD software.

With quarries throughout Wisconsin, along with stone seen throughout the world, you won't find a better selection of colors and textures delivered to you in a timely fashion.

Express Your Individual Style.

With a wide variety of textures, colors and sizes, Halquist Stone allows you to express your distinctive style by transforming the ordinary into the extraordinary.

A landscaping favorite, wallstone is the perfect choice for retaining walls and free-standing walls in creating an elegant and charming appearance to your home. The Halquist Wallstone Collection will help you play the perfect host for that upscale look, yet can express your individual style.

No matter what your style is, Halquist Stone has a collection of stones to create the look you envision.

RETAINING WALLSTONE

HALQUIST DESIGN TIP: #133

How High Should I Go? Determining the height of your retaining wall depends on the steepness of your incline. If you plan on leveling your slope one level of wall should do. Dramatic slope heights will require a series of walls terraced with garden plants or lawn. Still having trouble deciding? Let our experts help you figure it out!

Lannon Buff Steppers

Fond du Lac Buff Flagstone

Halquist natural cleft random flagstone makes a perfect choice for a natural patio or walkway. Most come in two size ranges:

Steppers

Considered smaller versions of flagstone, these cover up to approximately 1 to 3 square feet per piece. Available in Chilton, Fond du Lac, Silver Fond du Lac and Lannon.

Flagstone

Full size flagstone covers approximately 4 to 10 square feet

All varieties can be custom cut into regular patterns and other sizes available.

Moss Rock Flagstone

Patio Patterns As Easy As Legos.

Creating a good patio is more than a backyard retreat. It's the center of family entertainment, outdoor living and the great American cookout. Even when it threatens to rain, there's always the hope of a mad dash to the grill to feed the body and soul.

There are few places where a comfortable setting is so essential. And there are few places where you have so many chances to experiment with design and color. Not all patios need to be rectangular or square. By following the curves of your landscape, you can create a unique framework that blends in with your house and lifestyle. Or, you can make a dramatic statement that clearly marks your gathering spot. Whatever you decide, be sure to make room for the cook.

Creating that gathering place shouldn't be difficult and frustrating. By using Halquist Stone's predesigned patterns, not only will save your sanity but also wasted time in cutting and measuring.

*Innovative.
Distinctive.
Inspiring.*

Highest quality. Most recognized. Most used. Whatever the category, Halquist Stone dominates. It's clear we know stone, but we also know it takes more than a solid reputation to remain an industry leader. It takes quality products, state-of-the-art equipment and creative solutions - all of which we offer, and everything that makes our stone stand apart.

So take a look around. We're confident you'll discover why we've been Rocking America Since 1929.

Isn't It Time You Got Inspired?

Here's Seven Simple Ways.

Sometimes we tend to over-analyze some of the most simplest things in life. And being creative can be challenging for some for that exact reason. What inspires you? What pushes your imagination button? While the below suggestions might not be answers that a rocket scientist would give you, they are simple and effective.

- 1 Ask a child what he or she would do.
- 2 Look through a book on pop art.
- 3 Think of your favorite place on Earth, and break it down mentally into blocks of color.
- 4 Draw - even if you think you're bad at it.
- 5 Spend one hour listening to music through a headset
- 6 Buy a coloring book and crayons - then color outside of the lines.
- 7 Make a color copy of a picture or painting. Then tear it up into squares and then reassemble it.

Halquist Stone collects and sorts some of the most beautiful granite and glaciated limestone boulders that are perfect for any job.

HALQUIST FIELDSTONE

SIZE RANGE	COVERAGE PER TON	APPROX. WEIGHT
3 TO 6 INCHES	50 TO 55 SQUARE FEET	30 LBS.
4 TO 8 INCHES*	35 TO 40 SQUARE FEET	60 LBS.

Design Assistance

The natural depth of our cut stone, fabrication facilities and our architectural stone expertise, enables us to supply both large and small stone projects - commercial or residential.

If you demand the best, we invite you to bring your dreams and imagination to our professionals. Our estimating department will put them to paper using the latest version of AutoCAD and drawing techniques. Once approved, we will bring it to reality with the latest CNC technology and old world craftsmanship so that it can be marveled for generations to come.

Natural Fire Pit Kits

Install a cozy fire pit during the day. Spend a romantic date night at home. Forget the typical concrete block from the big box. Nothing compares to the beauty and durability of natural stone that will allow you to enjoy it season after season for years to come. Our natural stone fire pit kits are available in Lannon, Fond du Lac, Chilton and Waukesha color pallets. Choose from three different sizes: 30-inch kit, 48-inch kit and a 60-inch kit.

Edging For Plants

Forget that plastic edging or that big box concrete thing. Natural stone allows your planting beds to blend in with nature rather than sticking out like a sore thumb.

Border edging from Halquist is typically 4-inches thick by 4-inches wide with random lengths. It's Available in Chilton, Fond du Lac, and Lannon.

Chilton Quarry

100% Reused.

Did you know every American will need 1.18 million pounds of stone, sand and gravel in their lifetime?

Halquist Stone helps protect the environment from those demands by processing our manufacturing scraps. This material waste is processed into crushed aggregate, which may be used for the manufacture of concrete, asphalt, or road base products - all of which can continually be reused.

In addition, we can finely crush the stone into a powder called Aglime to fertilize the land that feeds the world.

PROUD MEMBERS OF THESE FINE ORGANIZATIONS

Because natural stone is made from nature, variations should and can be expected. Even though colors in this brochure are as close to the actual blend as possible, photographic and printing techniques - and actual viewing conditions - can alter perception of color.
