# welcome to the backyard

...and **welcome** to Rochester Concrete Products.

We are the preferred manufacturer and distributor of distinctive hardscape materials and supplies.

For nearly a century, Rochester Concrete Products™ and its sister companies have been refining the art and science of interlocking concrete products. RCP is recognized throughout the Midwest for creating landscape products rich in texture, full of character and manufactured with the highest quality at an affordable price. For these reasons, Rochester Concrete Products is the professional's first choice.

There are many landscape materials in the marketplace to choose from, and only RCP delivers the peace of mind you can trust. Our products are rare in that they combine beauty, durability and affordability.

RCP manufactures and distributes world leading brands: Necessaries kits for outdoor living, Silver Creek Stoneworks landscape tiles, steps, caps and tops, Rockwood Retaining Walls, Interlock Concrete

Products pavers, Rosetta Wall Systems, Keystone Retaining Wall Systems, Techniseal and Alliance Gator polymeric sands, sealers and cleaners and many more landscape accessories and components.

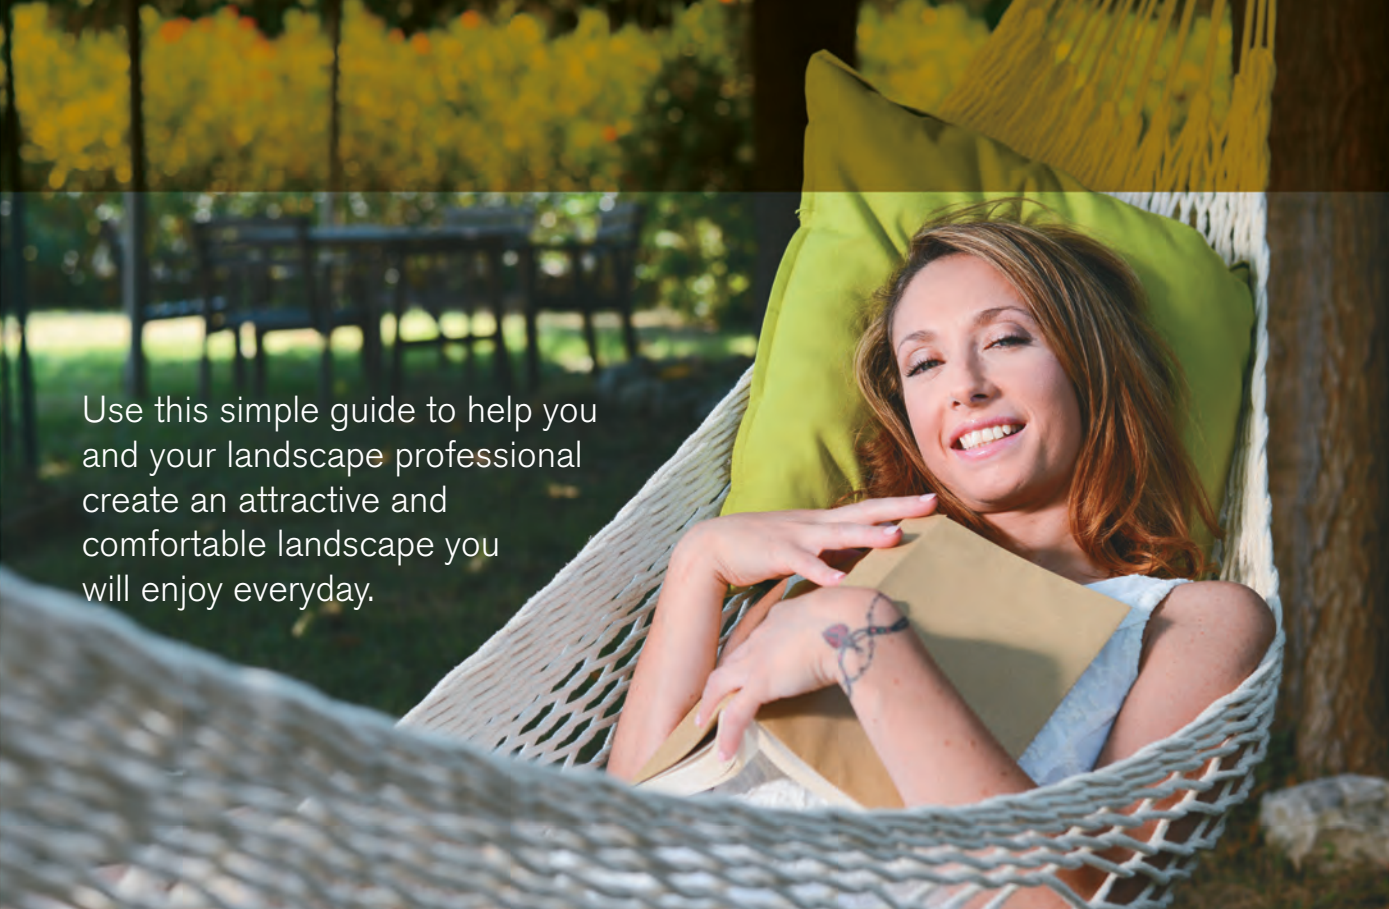

Whether looking for an outdoor room complete with fireplace and dining table or a retaining wall to expand and support a landscape, this comprehensive catalog is a design gallery. There aren't enough pages to tell our entire story, so we invite you to visit [www.rochesterpcp.com](http://www.rochesterpcp.com), or scan the QR tag to view more inspirational and award winning landscapes.

*Welcome to the backyard...*

**Rochester**  
Concrete Products™

Use this simple guide to help you and your landscape professional create an attractive and comfortable landscape you will enjoy everyday.

## The real benefits of landscaping...

Curb appeal – it's the best way to make a good first impression. Most homeowners agree, spending over \$45 billion on professional lawn and landscape services. Gardening has become America's #1 pastime, with over 80% of all households participating.

### What does this mean to you?

A well designed landscape does more than bring increased value to your home, it brings energy savings as well. More importantly, quality landscaping brings you endless days of enjoyment.

So follow the number one trend in the country and bring the indoors out by adding a raised patio, fire pit or an outdoor kitchen. Regardless of what you do, the enjoyment of the outdoors will reduce your stress and add real value to your home.

### Just follow these five simple planning steps:

- 1) Do your homework
- 2) Make a list
- 3) Make a budget
- 4) Sketch your design
- 5) Hire a qualified landscape contractor

#### 1) Do your homework

Visit us online to see backyard patio plans, photos, ideas and MORE! Stop by your local book store or library for books and magazines on landscape designs. You can get ideas for hardscape materials, plants, accents, furniture – everything to help make your planning complete.

#### 2) Make a list

Make a list of things you like and dislike. If mowing the lawn or weeding a flower garden isn't for you, make note of it. Do you prefer rocks vs. mulch? Do you love flowers, but dread replanting every year? Highlight your interests below and share them with your landscape pro.

	Like	Dislike
Modern	<input type="checkbox"/>	<input type="checkbox"/>
Natural	<input type="checkbox"/>	<input type="checkbox"/>
Relaxation / Quiet	<input type="checkbox"/>	<input type="checkbox"/>
Maintenance-free	<input type="checkbox"/>	<input type="checkbox"/>
Entertaining / Active	<input type="checkbox"/>	<input type="checkbox"/>
Matches Homes Architecture	<input type="checkbox"/>	<input type="checkbox"/>
Open and Spacious	<input type="checkbox"/>	<input type="checkbox"/>
Privacy and Shade	<input type="checkbox"/>	<input type="checkbox"/>
Eco-friendly / Energy Saving	<input type="checkbox"/>	<input type="checkbox"/>
Outdoor Kitchen / Living Room	<input type="checkbox"/>	<input type="checkbox"/>
Accent Lighting	<input type="checkbox"/>	<input type="checkbox"/>
Fire Pit / Fireplace	<input type="checkbox"/>	<input type="checkbox"/>
Flower Garden	<input type="checkbox"/>	<input type="checkbox"/>
Water Feature / Pond	<input type="checkbox"/>	<input type="checkbox"/>
Paver Patio and Walkway	<input type="checkbox"/>	<input type="checkbox"/>
Sound System	<input type="checkbox"/>	<input type="checkbox"/>

#### 3) Make a budget

When budgeting for landscaping renovation, plan to invest about 10% of your home's value, according to the American Society of Landscape Architects (ASLA). A more elaborate backyard sanctuary may require 15 to 20%. Much of what you will spend depends on how long you plan to stay in your home. If you plan to stay for more than ten years, 15 to 20% will give you the enjoyment you desire for years to come.

Homes Value \$ \_\_\_\_\_ x \_\_\_\_\_ %  
= \_\_\_\_\_ (Your landscaping budget)

#### 4) Sketch your design

Take out a pencil and paper and start at the beginning. Sketching will help you discover your likes and dislikes and make your landscaping process much easier.

#### 5) Hire a qualified landscape contractor

If you're not quite the weekend warrior to tackle your own landscape construction, start talking to the professionals. Landscape pros are invaluable assets for their design expertise, product knowledge and construction methods.

Before planning your landscape project, check with your local zoning commission for building restrictions and required construction permits. Always call 811 before you dig.

# lets get started

When it's time to choose a product, be sure you ask your landscaping professional for samples. There's no better way to select material than to see and touch the real thing.

There are countless pavers, slabs and landscape tiles to choose from, the same goes for retaining wall blocks. Knowing what products are best suited for a particular landscape application is crucial. For example, pavers that are designed for heavy vehicle traffic are not necessarily good choices for small patios or walkways. And with retaining walls, a heavy-duty wall system probably isn't the right product for use as a small garden wall. Your landscape professional will know what products are designed to meet the demands of any application.

#### **Pick the style that best suits your landscape design.**

Once you have an idea of what your landscape project is, it's time to consider colors and styles. Picking out product can sometimes be overwhelming. Have your landscape professional show you the products they've chosen or want you to consider. If you can't visit a dealer showroom where outdoor living products are displayed, ask them to provide samples.

#### **Need samples now?**

If you aren't able to find the hardscape products you need to help make your final color and style selections, you can request them online. Visit our web page for details on how to have samples delivered to your address.

#### **All of our hardscape products come with a limited lifetime warranty.**

Rochester Concrete Products provides a Lifetime Warranty on the structural integrity of its products to the original purchaser of the product for residential use.

For complete warranty information, visit us online at [www.rochesterpcp.com](http://www.rochesterpcp.com).

Our products have to live in, and up to, the demands of the backyard.

Our manufacturing process centers around quality production and delivering hardscape products meant to last, and outlast all others. There are many competitors in the marketplace to choose from but only Rochester Concrete Products delivers the level of quality and service you can trust.

#### **Our beauty isn't just skin deep, it's Kolor-Last deep.**

The rich colors in our pavers, landscape tiles and retaining wall products come from years of experience, trial and error, process improvement and the commitment to creating products you'll appreciate long after they're installed. We make concrete with locally sourced aggregates, high percentage cement content and a Kolor-Last™ pigment process that gives our products their rich color — all the way through. Unlike many surface-only color processes, Silver Creek Stoneworks, Interlock and Rockwood Retaining Wall products have color that goes below the surface.

The Kolor-Last™ process and our manufacturing methods create quality hardscape products that resist the damaging effects of the sun, Mother Nature, chemicals and harsh conditions that deteriorate inferior products over time.

#### **We exceed all manufacturing standards.**

Our quality control and evaluation processes assure we manufacture products that exceed the industry standards for strength, durability and resistance to freeze-thaw. Unless you're an engineer, you might not appreciate the following, but rest assured, these testing results are as important to you as they are to us.

##### *Paver Testing Results:*

- Compression: 11,800+ psi average
- Absorption: 3.9%
- Freeze-thaw (ASTM 939-09): 0.2%

##### *Silver Creek Testing Results:*

- Compression: 8,000+ psi
- Resistance to Scaling: Pass
- Flexural Strength: 1,000+ psi
- Point Load: 1,000+ psi
- Solar Reflectance: Certified lab results by color
- Coefficient to Friction: 0.73

##### *Rockwood Retaining Walls Testing Results:*

- Compression: 5,480 psi
- Absorption: 4.9%
- Block to Block Shear: 5,000+ psi (data available)

**Rochester**  
Concrete Products™

[www.rochesterpcp.com](http://www.rochesterpcp.com)

The endless combinations of hardscapes available can make the selection process challenging.

To simplify the task, follow these **four design considerations** when choosing materials for your backyard design.

# product **considerations**

## 1. choose products for performance and **style**

Style includes the shape, size and surface detail of a paver, slab, tile or wall. Choose a style that best suits the application and complements your surrounding architecture and expresses your personal flair.

## 2. pick your **colors**

Whether you prefer a solid color, a blend or a combination of styles, shapes and colors, find one that complements or contrasts your roofing, siding or stonework. Also consider what furniture & decor, plantings and sealers will do to create the colors you'll always appreciate.

## 3. pick some **patterns**

Start by finding examples of landscapes and patterns you like, and share them with your landscape professional. An experienced pro can help you with your design process, budget, product selection, construction and maintenance.

## 4. add the **details**

Nothing completes a hardscape area like adding beautiful accents of inlays, caps/tops and borders. Use combinations of contrasting styles, color or patterning to create lasting flair for your outdoor living space.

2.375 sq./ft. 20 units per pallet
- Available by pallet or piece

cedar tan/brown

espresso brown/charcoal

# patio decking

## Strong and affordable patio and rooftop decking with the look of natural stone

Silver Creek landscape tiles are the newest material choice for patio decking. Property owners will not only enjoy the look and feel of natural stone on their raised patio, they'll never have to scrape, paint, or stain a conventional wood deck again.

Aside from creating valuable and attractive outdoor spaces, rooftop pedestal decks have many benefits. These unique systems can promote energy efficiency, protect membrane roofing, help reduce noise, hide drainage and utilities, and allow easy access to what's below.

Always consult a structural engineer for proper deck design.

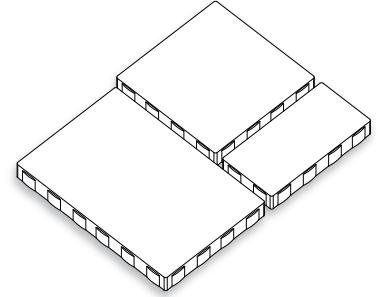

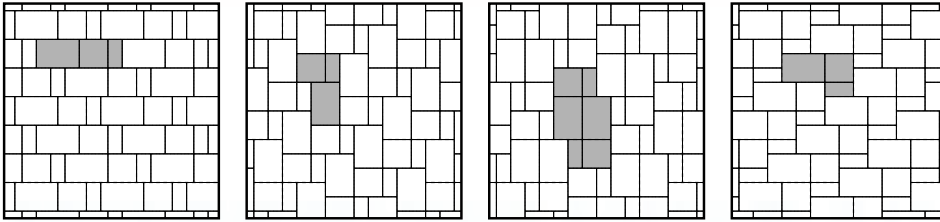

# minnetonka paver/slab

## Patterns

## Features:

- Three-piece, one-pallet system
- Slate surface detail

Wet-look sealers  
enhance color and  
help protect against the  
harmful effects of  
the sun, wear  
and Mother Nature.

Natural-look sealers help keep pavers looking like the day they were installed. Wet-look sealers dramatically enhance the color and look of pavers and landscape tiles.

# protect your investment

Professional grade sands, cleaners and sealers help maintain your patio, pathway or drive's beauty indefinitely.

Choose a joint sand that stands up to the damaging effects of freeze-thaw, erosion, weeds and insects.

#### **Choose the right joint sand the first time**

Your paver project represents an investment in your home and the time you spend outdoors. Choose a high-quality polymeric joint sand to protect your investment and minimize your time spent on maintenance. Unlike conventional sands, polymeric sand remains in place, resisting erosion caused by repeated sweeping, wind, rain and even power washing.

#### **Eliminate grass and weeds**

Weeds and grasses will take root anywhere they can, including your new patio if not sanded properly. Polymeric sand creates an impenetrable sand joint and represents the best defense available against unwanted vegetation.

#### **Insect protection**

Without the proper protection, ants will take up residence in the spaces between pavers. Like weed prevention, polymeric sand forms an impenetrable barrier against ant and insect tunneling.

Like any decorative exterior surface, pavers and landscape tiles aren't immune to the effects of time and use.

#### **Keep your investment clean and beautiful**

BBQ grease, motor oil, suntan lotion, fertilizer granules, bird droppings, leaf stains, paint and tire marks conspire to dull the beauty of decorative pavement. Sealing products are the optimal prevention against discoloration caused by weathering, UV rays and salt. Over time, the corrosive forces of nature can take a toll on pavers. Applying a protectant slows the march of time.

#### **Make surfaces easier to clean**

The time and effort required for regular cleaning or preparing to entertain is dramatically reduced if your pavement is protected. Sealers are the ultimate protection against oil and other stains.

#### **Choose your look**

You can choose the look of your patio, path or drive by the product used to protect its surface. A wet-look or semi-gloss sealer enhances color while matte or natural-look sealers preserve its original appearance. No matter what look you choose, sealing is the essential final step in your project.

Use professional grade products from:  and

The kitchen is a collection of granite-topped cabinets for backyard baking, grilling, dining and entertaining. Elegant, functional and affordable, these quality components and cabinets are ready to assemble in any configuration you can imagine.

# necessaries outdoor living kits

## Affordable luxury

The Kitchen by Necessaries is beautiful and functional, turning backyards into attractive and enjoyable outdoor living spaces. These cabinets come ready to assemble making them easier to install and more affordable than typical masonry structures.

## Easy to build

The Kitchen is a series of individual cabinet kits that come complete with everything needed to build, including precut block and granite tops sized to fit, reinforcements, adhesive, and easy-to-read, step-by-step instructions. Depending on the complexity, most kitchens can be built in a day or less.

## Expand anytime

Build your Kitchen all at once or add new features over time. Because of its modularity, expanding your outdoor cooking and entertaining space is easy to do at any time.

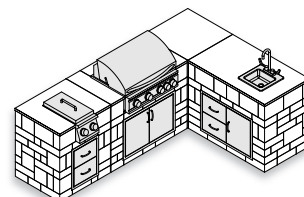

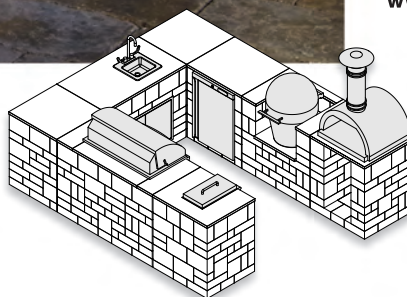

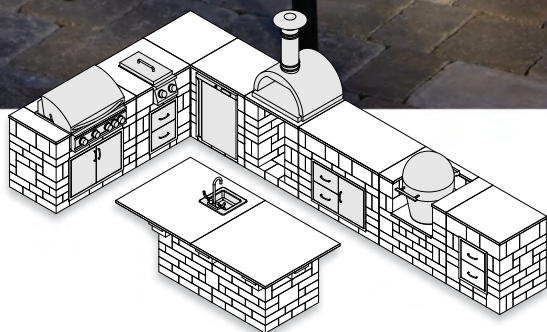

## Standard features

- Easy-to-read, step-by-step instructions
- Rockwood's multi-piece tumbled Lakeland block
- Premium stainless steel grills and components
- High-grade 3cm granite tops
- Concrete precut and reinforcements sized to fit
- VOC-compliant adhesive and gloves

## Earthy colors

The Kitchen features Rockwood Retaining Walls' multi-piece, tumbled Lakeland wall block. Its linear design and aged appearance fit well in landscapes of any style or decor.

[www.outdoorlivingkits.com](http://www.outdoorlivingkits.com)

## Beautiful, solid granite tops...

Granite is an igneous rock formed billions of years ago when magma cooled deep beneath the earth's crust. Nearly as durable as diamond, granite owes its density and hardness to its origins – solidified under extreme pressure deep within the earth. Granite is as durable as it is beautiful; it's not affected by extremes in temperature and under normal conditions, resists etching by knives, household acids and kitchenware.

### Besides its beauty, granite is...

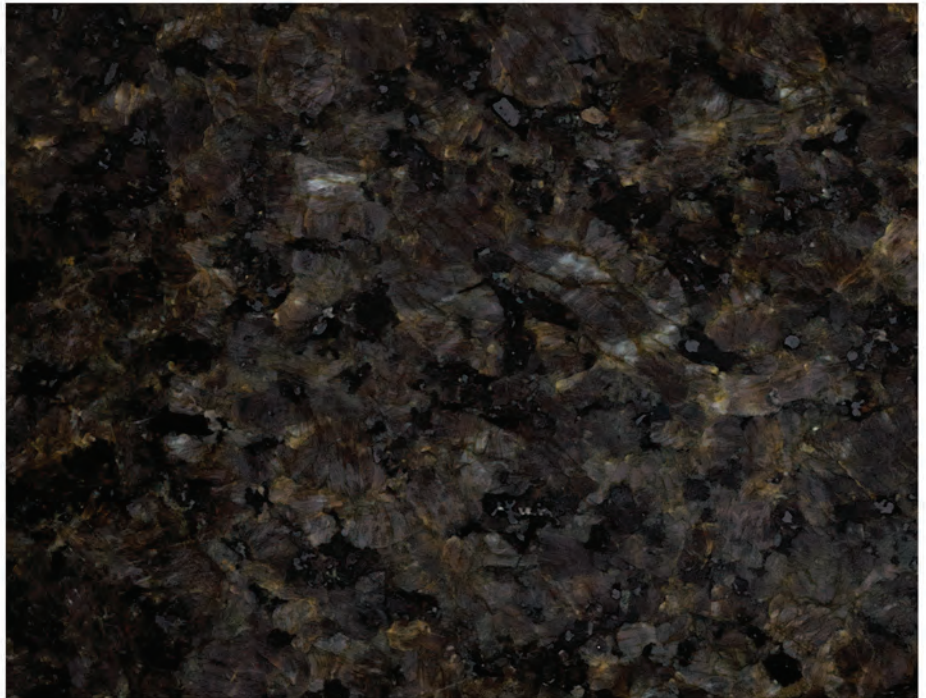

- Sanitary – when sealed, granite does not harbor bacteria
- Highly resistant to burning or charring from hot pans, appliances, utensils etc.
- 100% natural and non-toxic
- Easily cleaned

## Earthy, natural cabinet colors...

The Kitchen features Rockwood Retaining Walls' multi-piece, tumbled Lakeland and Riverland wall systems. Their earthy color variations and aged appearance enhance the architectural style of any home. All Kitchen cabinets are available in four color choices.

**viscon white** granite

**black pearl** granite

**beechwood** brown/charcoal/buff

# necessaries outdoor living kits

## Premium grills, ovens and kitchen components...

The Kitchen features Summerset Professional Grills and stainless steel components. Their commitment to quality is reflected in the craftsmanship of their products that are backed by the strongest warranty in the industry.

## Made with crazy-good stainless steel...

The Kitchen grills and cabinet components are subject to constant use, and the damaging effects of time and Mother Nature. For these reasons, Kitchen grills and components use high-grade stainless steel for reliability and durability. These professional series grills are designed and built with performance, ease of use and total customer satisfaction in mind. With proper care and maintenance, they can last indefinitely.

The real strength comes from #443 stainless steel. Grade #443 stainless steel is an alloy high in titanium and chromium (making it magnetic), yet very low in carbon. High quality stainless steel was formally perceived as non-magnetic, but since the origin of #443 that is no longer true. Compared to other grades of stainless steel, #443 expands less when heated - meaning less stress, warping and corrosion - making it the choice for use throughout the Summerset Professional Grill Series.

Grade #304 is one of the most widely used grades of stainless steel. Its durability and beauty make it the preferred grade in the market. #304 is a non-magnetic alloy high in chromium and nickel with some carbon. It is used in the drawers, doors and sinks, along with the cooking grids and racks, because it will last like no other.

## There are stainless steels you won't find in any of our products...

Grades #201 and #202 stainless steel are comprised of nickel with magnesium or nitrogen. These alloys were created to reduce costs; they are not magnetic, nor stand up to the elements as well as grades #304 or #443. Commonly used in grills and appliances of lesser quality, #201 and #202 are more likely to experience corrosion when subject to high temperatures.

## Backed by some serious warranties...

### Grills

Limited lifetime warranty on construction and manufacturer defects. Limited lifetime warranty on frame and housing. Limited lifetime warranty on cooking grates, burners and valves. One year warranty on all other parts, components, and electrical.

### Components

Limited lifetime warranty on construction, workmanship and materials for all stainless steel components, including doors, drawers, ice chests, beverage centers, sinks and grill liners.

### Granite/Concrete

All Kitchen cabinets come with a limited lifetime warranty on the granite and concrete against material defect.

Note: Summerset warranty does not cover commercial or rental applications. It does not cover discoloration, surface rust, corrosion, or oxidation, which may occur due to harsh environments, chemicals or overheating. Warranty does not cover damage resulting from improper installation, abuse, alterations, misuse, or improper care. All warranties are subject to manufacturer review. Warranty covers replacement parts only. It does not cover labor or labor related charges. Registration form for appliances must be submitted within 30 days of purchase date to validate the above warranty. For complete warranties, visit us online at [www.outdoorlivingkits.com](http://www.outdoorlivingkits.com)

**sizzler grill** cabinet kit

## grand fireplace kit

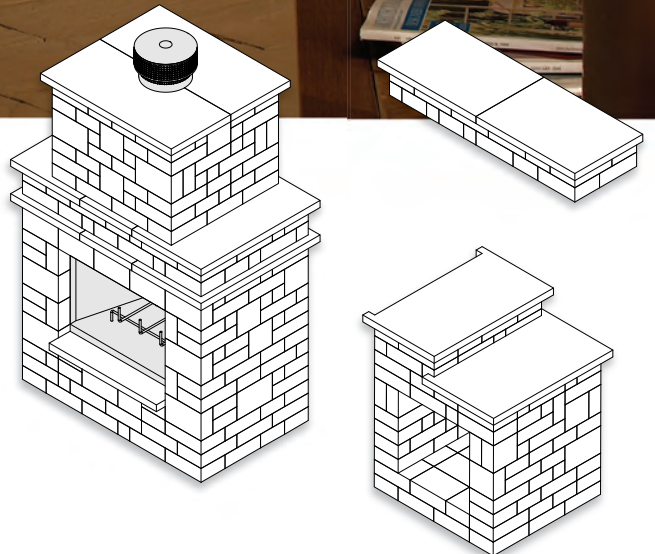

gas option  
available

The **Grand Fireplace Kit** is the perfect centerpiece for your outdoor living room. Its appeal comes from its large profile, universal design and aged appearance. Includes Fmi's Tuscan 36" stainless steel, wood-burning insert, log rack and spark curtain. Adaptable for natural or LP gas.

### Features:

- 4' stainless stovepipe chimney
- Spark suppressor cap
- Gas burner log set (optional)
- Optional **Grand Wood Box Kit** available left or right side
- Optional **Grand Hearth Kit**

# necessaries **outdoor living** kits

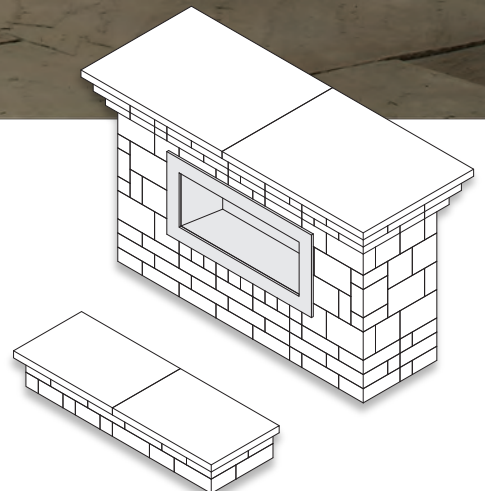

## contemporary gas fireplace kit

The clean lines and simple profile of the **Contemporary Fireplace Kit** create a backyard centerpiece perfect for homes with sophisticated style. The ventless, stainless steel insert features electronic ignition, glass wind screen and glass bead fire bed.

### Features:

- FireGear stainless steel gas insert
- 43,000+ Btu/hr, natural gas or LP
- Electronic ignition
- Stainless steel access door
- Optional **Hearth Kit**

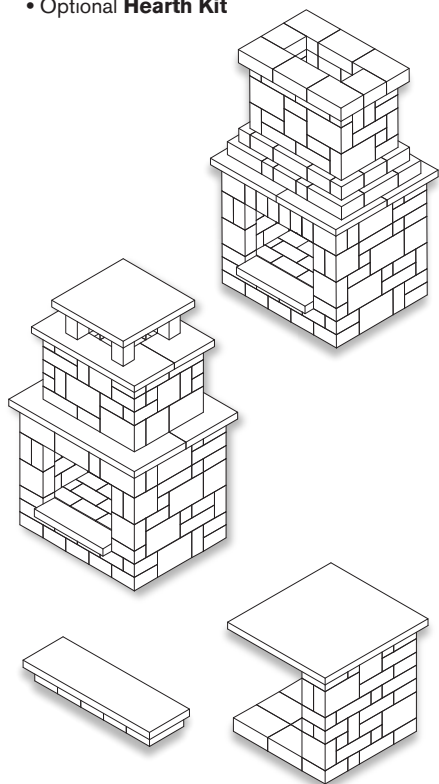

The **Compact** and **Colonial Fireplace Kits** are ideal for smaller backyards and patios. Each kit comes complete with 2.25" thick firebrick, ensuring durability and enhancing the overall appearance.

Popular for their affordability and smaller footprints, these fireplaces will generate warm accolades from family and guests for years to come.

**Features:**

- 2.25" fire brick
- Optional **Woodbox Kit** available left or right side
- Optional **Hearth Kit**

Optional Grand Canyon gas log sets available for gas fireplace kits and Grand Gas Fire Ring.

## colonial fireplace kit

## compact fireplace kit

# necessaries **outdoor living** kits

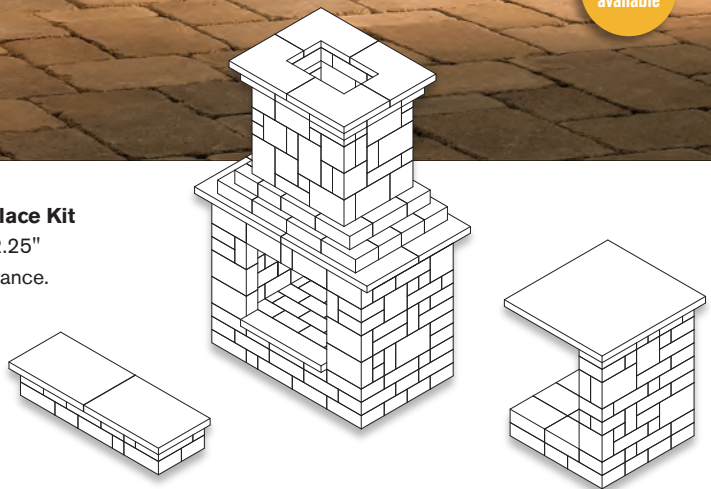

## **victorian** fireplace kit

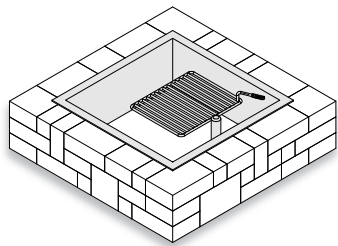

Larger and taller than the Compact Fireplace, the **Victorian Fireplace Kit** becomes the centerpiece in any backyard. Comes complete with 2.25" thick firebrick, ensuring durability and enhancing the overall appearance.

### **Features:**

- 2.25" protective fire brick
- Optional **Woodbox Kit** available left or right side
- Optional **Hearth Kit**

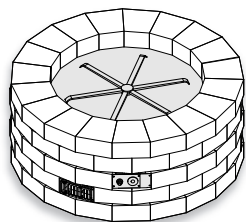

No matter the locale, there will be cool evenings to enjoy the warmth of a backyard fire. A Necessaries **Fire Ring** adds charm to any backyard design. Because they're built with high-quality Rockwood block and a U.S. Park Service grade steel insert, they will last indefinitely.

**Victorian Fire Pit Kit:**

- Four-piece, heavy gauge, solid steel insert protects block
- Optional **Swivel Cooking Grate**

Designed for slab, paver or gravel bases, the **Grand Gas Fire Ring Kit** has both style and convenience. Because it's smokeless and ashless, it's an ideal alternative for properties with open burning considerations and restrictions.

**Grand Gas Fire Ring Kit:**

- 65,000 max Btu/hr
- Natural gas or LP
- #304 stainless steel construction
- All connections and fittings
- 50 lbs. lava rock
- Optional Indiana Limestone colored cap
- Optional Grand Canyon gas log set
